

# AIDEN DRUGGE

Software Developer

Santa Cruz, California

+1 (408) 458-6588

aidendrugge@gmail.com

## PROFILE

Elastic and dependable software developer with over 3 years of experience executing complex projects from ideation to production. Builds solutions with a focus on improving the lives of stakeholders, whether it be synchronizing product data throughout company systems, or integrating a new warehouse with an ERP. Proficiency in web frameworks, database design, and data visualization tools flesh out a well-rounded toolkit. Hungry to learn.

## EMPLOYMENT HISTORY

- ❖ **Software Developer, BMC Switzerland** ..... 2022 — Present  
Scotts Valley, CA
  - Design, build, and maintain software solutions that BMC relies on, from large projects to ad-hoc requests.
  - Integrated a third party PIM system as a single source of truth for product data throughout our systems. This eliminated significant redundancies in data entry and storage for company websites and applications.
  - Self-managed an integration project to connect a new warehouse to our ERP, tracking inbound and outbound shipments by the hour.
  - Drastically improved the efficiency of product inventory and pricing synchronization between the ERP and our websites. Wrote the first documentation of these processes.

## EDUCATION

- ❖ **California Polytechnic State University, San Luis Obispo** ..... 2016 — 2021  
*B.S. in Business Administration, Concentration in Information Systems* San Luis Obispo, CA
  - President's Academic Honors List
  - 4x Dean's Academic Honors List
  - Selected as Business Analytics Fellow
    - Fellows were trained in Data Analytics skills and AWS services, and used this knowledge working for local companies.
    - Built application to scrape address data from government websites for a client fighting human trafficking.

## INTERNSHIPS

- ❖ **Business Intelligence Intern, SurveyMonkey** ..... 2020  
Remote
  - Built a Tableau report measuring KPIs of over 100 integrations, giving business stakeholders key insights for analysis.
  - Created complex SQL scripts to retrieve and manipulate large datasets. Connected multiple data sources into one report.

## SKILLS

SQL, Relational database design .....	C#, .NET .....
Python, Flask, Django .....	SAP ByDesign .....
Tableau .....	REST, GraphQL .....
